

Center Snowflake

Cutting:

From the **Dark Grey** fabric, cut:

- (1) 8 ½" square

From the **Light Grey** fabric, cut:

- (4) 2 7/8" squares

Assembly:

- On the wrong side of the light grey squares, draw a diagonal line from corner to corner. With right sides together, place a marked light grey square on each corner of the dark grey square. Sew on the drawn line. Trim seam allowance to ¼" and press towards the light grey squares.
- Download and print out the **Center Snowflake** template. Trace the template onto the paper side of fusible web. Roughly cut out around the traced lines. Following the manufacturer's instructions, fuse the fusible web to the wrong side of the Center Snowflake fabric. Cut out along the traced lines.
- Following the manufacturer's instructions, fuse the Center Snowflake to the center of the 8 ½" square. Stitch the perimeter of the Center Snowflake using your preferred applique stitch.
