

Place this line on side edge of tray

Instructions for handle template

- ✓ Use this template to cut consistent curves on each corner of serving tray
- ✓ Trace pattern onto hardboard or 1/4" plywood to create template
- ✓ Place template on top of tray and trace curves onto tray
- ✓ Flip template to trace onto opposite corner, and repeat on other end
- ✓ Adjust as necessary to leave 4" lip in center for handle

This line forms the curve for each corner

Place this line on end edge of tray (handle)
