TIPS FOR SUCCESS

1. WATCH THE EPISODE!

See how Angela pieces and quilts these designs as she works her way through the quilt top. Go to youtube.com/midnightquiltshow and search for Twinkling Twilight Quilt.

2. GET THE DIAGRAMS

See the next few pages for Angela's sketched quilting designs. These are a great starting point for quilting ideas-- whether you want to Turn In Early with something simpler, or stay Up All Night with more free-motion fun.

3. GET YOUR MACHINE READY

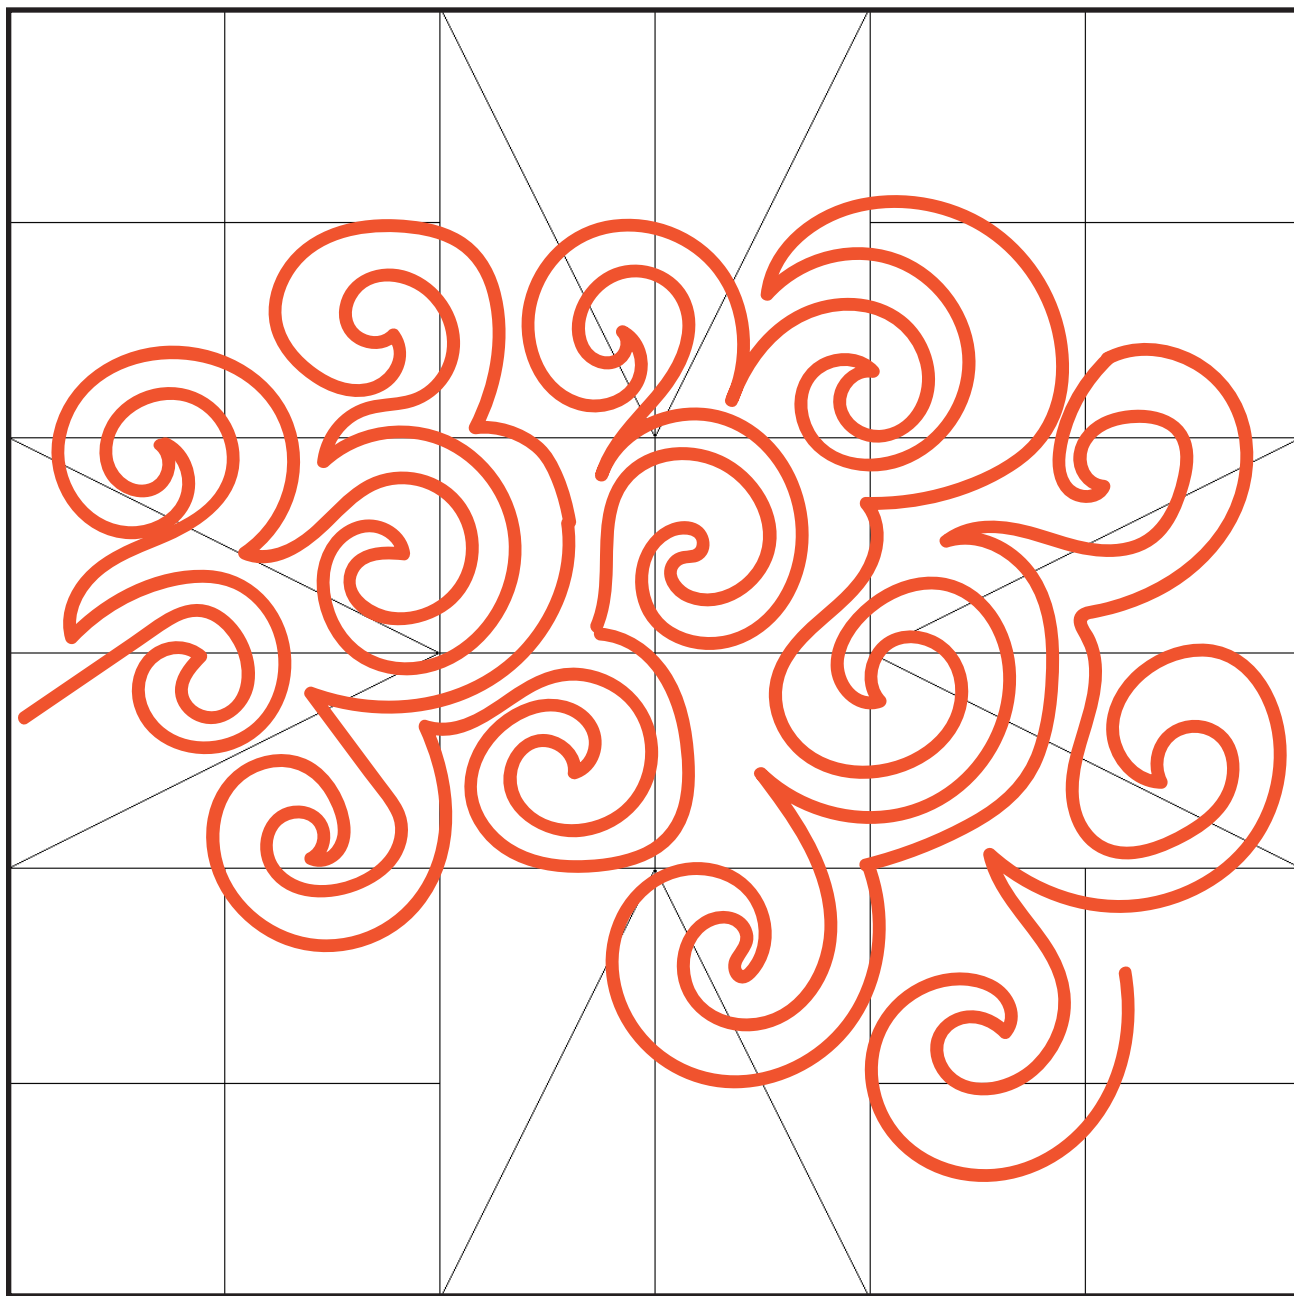

Prepare for quilting success by ensuring that your machine needle is sharp. Are you experiencing breakage of your top thread, or skipped stitches? Do you hear a quiet popping sound when your needles move through the fabric? These are all signs that your needle is dull and it's time for a change.

TURN IN EARLY

Quilting Diagram

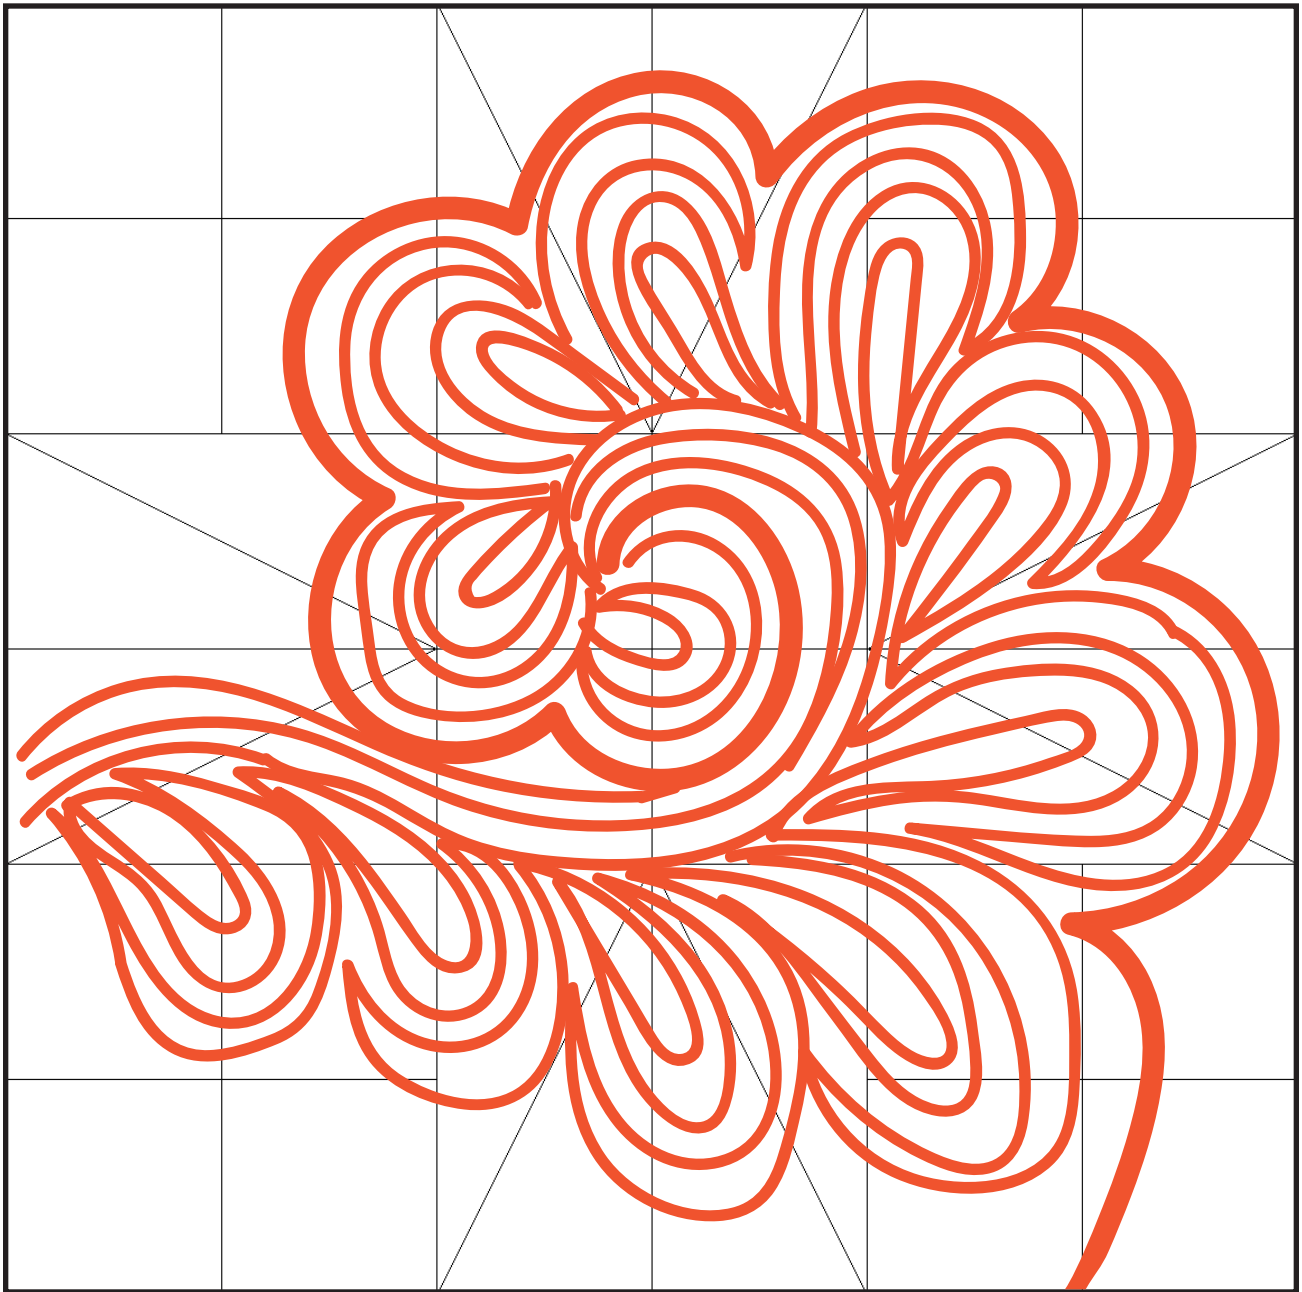

After spending so much time piecing a quilt, the last thing you might want to do is spend forever on the machine quilting. The basic swirl meander is a design that I use on a lot of quilts, and I knew that it would be perfect for Twinkling Twilight. You can quilt the lines closer together if you want denser quilting.

UP ALL NIGHT

Quilting Diagram

My favorite quilting design is one that looks harder to quilt than it actually is. The paisley feather is the perfect example. Just add lots of echo lines and you have a fun feather for the borders of your quilts. It even looks great when used in blocks and backgrounds as well!
